IN THE TITLE

Please amend the Title as follows:

HEATING/AIR-CONDITIONING INSTALLATION FOR A MOTOR VEHICLE[.]
INCLUDING AN AIR/HEAT-CARRYING FLUID/REFRIGERANT- FLUID EXCHANGER

IN THE ABSTRACT

Please amend the Abstract as follows.

ABSTRACT OF THE DISCLOSURE

B2
AU

A heating/air-conditioning installation for a motor vehicle has a thermal loop which includes a refrigerating compressor, a condenser, a pressure-reducing valve, an evaporator, and a heating element. The condenser and the heating element are grouped together into a single exchanger including a main module forming a main air/heat-carrying fluid/refrigerant fluid exchanger.

IN THE SPECIFICATION

As requested by the Examiner, Applicant has attached hereto a "marked-up" copy of the original specification as well as a "clean" copy of the revised specification.
